YIP

Your Ideas to Practice II

Developing sustainable solutions
for water pollution in a global
cooperation

The second phase of YIP project will be organized in cooperation with KNUST (Ghana), UNIVA (Mexico), and SRH University Heidelberg. This initiative will be again financed by Baden Württemberg Stiftung (BWS).

The core point of YIP-II is "developing sustainable solutions for water pollution in a global cooperation" and the project will be led by Prof. Dr. Gayh from SRH HD, Prof. Dr. De Regil from UNIVA and Prof. Dr. Asiedu from KNUST.

In the frame of this project, starting from March, online conferences, workshops, webinars, study visits and many other activities related to water management will be conducted.
